

PRINCIPAL'S MESSAGE

It is hard to realize that this school year is coming to a close. We regret that we must say, "Good-bye", to one hundred and one A6 boys and girls who are ready for Junior High School.

We wish for them great success and happiness in their venture. We know that many will become leaders in whatever field they choose because they have the ability to excell. We hope that their years at Colfax have established for them certain standards for citizenship and learning that will stay with them always.

Thanks to our A6 class for the many things they have done for their school. May they always be willing to serve their school, home, and community.

Frances Pfortner, Principal

Good Luck,
Happiness, Success
To Our Graduates !!!

Colfax Avenue School

(Message from the Principal)

Following is the message from Mrs. Pfortner, the principal. She announced the graduates from the summer class of 1960. This is the only proof most of us have that we graduated from grammar school. One of the graduates was Ralph Mitzenmacher who transferred from Walter Reed to a school in Granada Hills after the 7th grade. Ralph taught the 4th grade how to divide ($52 \div 4 = 13$) and how to spell arithmetic (A rat in the house might eat the ice cream). Ralph graduated from Harvard Law School and now lives in the State of Washington.
